

REPUBLIC OF RWANDA

**MINISTRY OF ENVIRONMENT
P.O Box: 3502 KIGALI**

Request for Application for an Online Course on Environmental Leadership Programme on Sustainable and Resilient Infrastructure.

The Ministry of Environment (MoE) in partnership with UNEP and UNITAR is organizing an online training course that will start on 30th November to 8th December 2021 as part long term plans for capacity building on sustainable infrastructure development between MoE and UNEP.

The training is designed to increase understanding of opportunities and challenges associated with sustainable and resilient infrastructure, as well as the policy conditions to enable and address them, and introduce different tools for incorporating sustainability into infrastructure development. It will cover topics related to planning, financing, digitalisation and implementing sustainable and resilient infrastructure in both rural and urban contexts.

The training is targeted at policymakers from Rwanda from relevant ministries and other institutions (e.g., environment, finance, economy, development, strategic planning, transport, labor, etc.) that are involved in infrastructure planning, delivery, operation, monitoring and evaluation. City-level can also participate.

If you are interested, please:

1. Email Beibei.gu@unitar.org with copy to w mugabo@environment.gov.rw with your name, entity, job title and email address.
2. Fill this registration form: <https://www.uncclern.org/environmental-leadership-programme-on-sustainable-and-resilient-infrastructure/>.

Nominated candidates should be/have:

- Mid-senior level /technical-level decision makers and policymakers involved in infrastructure planning, investment or management of infrastructure projects;
- With reliable access to stable internet connection throughout the course period; and
- Proficient in written and spoken English.

N.B: Deadline for application is **26 November 2021, 5:00 pm Kigali time.**

Signed by:

**Patrick KARERA
Permanent Secretary**
